# What did you **discover**?

Let's reflect on your interviews and the stories you heard from real people.

**What surprised you the most?**

Was there a story that stayed with you and why?

**What common themes did you notice?**

What challenges or needs came up more than once?

**What insights stood out?**

What did you learn about their financial lives and aspirations?

**What do you think they need most?**

What kind of solutions could truly make a difference?

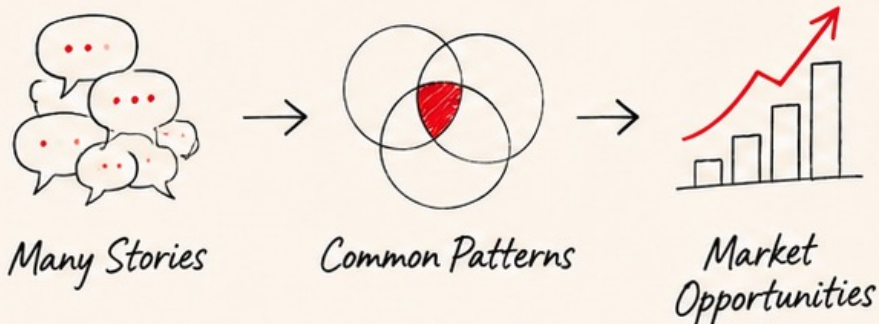

**Share openly.** Every perspective adds value.  
Every story brings us closer to real solutions.
